GABRIEL CRAMER

FULL-STACK DEVELOPER

I am a full-stack developer highly focused on efficiency.
Being a strong advocate of functional programming, I leverage functional concepts in order to produce performant, maintainable, testable and bulletproof code.

EMPLOYMENT HISTORY

FULL-STACK DEVELOPER AT CODE4NORD

APRIL 2020 – PRESENT

- [Video streaming platform @ Zibra.dk / Full-stack Developer with React and Node.js](#)

Built and maintained a streaming platform using server side rendering, Node.js and MongoDB with focus on implementing recurrent payment for monthly subscriptions and performance optimizations.

FULL-STACK DEVELOPER AT TVARITA

JUNE 2015 – APRIL 2020

- [DSP @ Verizon Media / Front-end Developer with Ember](#)

Implemented new features and fixed pre-existing bugs for the Demand Side Platform, as part of a remote team.

Wrote unit, acceptance and e2e tests using Ember's built-in tools and Cypress.

- [Smarthome @ E.ON / Front-end Developer with React](#)

Implemented new features and maintained the hybrid single page application written in TypeScript, with great focus on improving code quality.

Integrated and worked with a lot of devices that formed a whole smart home ecosystem.

Communicated and collaborated with multi-disciplinary teams of engineers, designers and clients to overcome imperfect documentation and deliver the product on time.

- [CRM @ Construction Company / Full-stack Developer with Vue and Firebase](#)

Built a progressive web application for a construction company's internal management system.

- [Customer Portal @ Media Markt Saturn / Tech Lead](#)

Traveled to meet the product owner and the old development team and made sure a smooth handover to our team was achieved.

Led and worked with a team of three developers, improved the workflow, discussed the goals for each sprint and offered support when needed.

- [WebSmartMirror @ AcepFrance / Full-stack Developer with React and PHP](#)

Built a single page application that provided several tools and graphic simulations for opticians.

Used three.js to create 2D and 3D animations and also made contributions to the open source library.

- [SmartMirror @ AcepFrance / Software Developer with Objective-C, C++ and Unity](#)

Implemented new features and designed customizable mobile and desktop applications for several clients.

Created innovative user interfaces for virtual reality applications developed for Oculus.

EDUCATION

BACHELOR'S DEGREE IN COMPUTER SCIENCE

BABEȘ-BOLYAI UNIVERSITY, CLUJ-NAPOCA, CLUJ

SEPTEMBER 2013 – MAY 2016
